Dear Hiring Manager,

I am writing to express my interest in Junior Data Scientist role at Company Z . With a strong background in Python Programming and Data Analysis, I am confident that my skills and experiences make me an ideal candidate for this role. Over the course of my career, I have developed a robust set of skills in Python Programming, Machine Learning and Data manipulation which I have applied in various projects.

In addition to my technical skills, I am highly adept at creative design, professional communication, and logical thinking, which I believe are crucial for success in any professional environment.

I am eager to bring my unique blend of skills and experience to your team and help Company Z achieve its goals. I have attached my resume and portfolio for your review, and I welcome the opportunity to discuss how my background, skills, and certifications can contribute to the continued success of Company Z

Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,

Christian

GOALS

Short-Term Goal

- Secure a position as a Junior Data Scientist at a leading company where I can leverage my skills in Python Programming, Machine Learning, and Data Analysis to contribute to innovative projects.

Medium-Term Goal

- Gain extensive experience in AI and Data Science to develop cutting-edge solutions, ultimately working towards a specialization in AI engineering.

Long-Term Goal:

- Establish a successful career as an Machine Learning Engineer, developing impactful AI-driven solutions across various industries.
- Pursue my Passion in Arts.

Plans

- Graduate with Latin honors from STI College Ortigas-Cainta with a Bachelor of Science in Computer Science.
- Continue to enhance my expertise in AI and Machine Learning through hands-on projects and advanced certifications, ensuring I remain at the forefront of the industry.
- If a career in AI does not materialize as expected, I plan to leverage my experience in social media management, digital art, and business acumen to start a pet-related business
